LORE & ESSENCE

"Is it ethical? Probably not. Is it fascinating? ABSOLUTELY."

Goffrey is the master alchemist of Tiamat Academy, a jittery 220-year-old man who is considered mad by his peers — and they're not wrong. His alchemy combined with Sileisil's power lets him cheat death. He creates potions, poisons, stews, and occasionally explosions. He has killed people in the name of perfecting nature. He works alongside Dorinar and Sileisil, and is one of the few who understands the depth of the Academy's secrets.

KEY RELATIONSHIPS

Dorinar. His colleague. They work together but Dorinar keeps him on a short leash.

Sileisil. Her power fuels his longevity potion. A terrifying partnership.
